

LEARNING AWARENESS COMMITTEE

The Learning Awareness group offers an opportunity for parents to get together to discuss any concerns and or observations about their children's learning and the inter-dependency between learning and behavior. This is not intended as a place to obtain formal advice but simply to share experiences in the hope that your insight will inspire and support those who find themselves in similar situations. If you are struggling with a learning or behavioral issue (whether this relates to a child needing assistance or a child capable of advanced learning) and would like to bounce it around, or if you have successfully come through a related issue and would like to share what worked (or didn't) PLEASE join us on the first Tuesday of every month at Mont'Kiara Coffee Bean @ 8:45am.

In addition to support, the Learning Awareness group would like to provide more opportunities to hear professionals talk about Learning differences and offer solutions for exploration. Keep an eye out in The Link for upcoming talks from professionals at M'KIS, within our community and from overseas. Talks may include; Vision Therapy, After School Programs in the area, M'KIS Learning Support program, Holistic Approach to Learning Differences, Nutrition, Educational Kinesiology etc....

Have you seen an audiologist in town about whom you just can't say enough? Does your child attend an after school program which has had tremendous, positive affects on their schoolwork? Have you read a book or attended a workshop that gave you invaluable information in regards to your child's behavioral issues? Do you have to travel to Singapore, or even further to have your child assessed and would like to see similar services provided in KL? Do you have any suggestions for speakers? If you have any input, recommendations or constructive, informed feedback on any therapists in town, please let us know as we are in the process of building a directory for Learning Awareness and would hugely value your feedback.

Recommended Reading available at M'KIS Library

Book Reviews

Feed back, feed back, feed back. PLEASE let us know how we can assist you so that your child can learn to their full potential.

QUOTES

"Behavior is Communication." Judith Bluestone

"If they don't learn the way we teach, perhaps we should teach the way they learn."

"It is, in fact, nothing short of a miracle that the modern methods of instruction have not entirely strangled the holy curiosity of inquiry." Albert Einstein

"Treat people as if they were what they ought to be and you help them become what they are capable of being." Goethe

"Education is not filling a vessel, but lighting a fire." Carl Jung
